

Cedar Point Elementary School

SPACE WEEK

October 3-7, 2016

Remote Sensing: Enabling Our Future

Celebrate Earth Observation from Space for the betterment of the Human Race!

Here are some things your Cedar Point Champion Cheetah will be learning this week:

- **MONDAY OCTOBER 3** - Students will be introduced to World Space Week, a celebration by the United Nations of various Space topics each year from October 4th -10th.
- **TUESDAY, OCTOBER 4** - Students will explore "**Earthrise**", the making of the 1968 photograph of Earth as seen from the moon by Apollo 8 Astronauts.
- **WEDNESDAY, OCTOBER 5** - We are asking students to participate in "**Space Walk to School Day**" and students will learn about our place in the Solar System. Plan to meet at the Braemar Clubhouse on Iona Sound Drive at 8:25 to walk together down Braemar Parkway to Cedar Point.
- **THURSDAY, OCTOBER 6** - Students will look at the **International Space Station**, as we learn about the astronauts on the ISS and what projects they are working on that involve Earth science.
- **FRIDAY, OCTOBER 7** - Our students will attend an **assembly** with a guest speaker, Erika Vick, a member of the Office of Communications at NASA, will round out our World Space Week.
